Farewell

UTSAV – 2026

UTSAV – 2026, the Annual Cultural Fest of Shrishti Schools, was celebrated with grandeur and enthusiasm on 10 January 2026 at 5:30 p.m., showcasing the creativity, talent, and cultural diversity of students across all curricula.

The programme began with an introduction, a prayer song Shiva Mala, and a lively band fusion, setting an energetic tone. Mesmerising performances followed, including classical and contemporary dances, group songs, folk presentations, plays, and instrumental ensembles. Highlights such as Pearl of Orient Intruz, Disney's 100 Years of Wonder, Shiva the

Cosmic Energy, Ther Thiruvizha, Dr. A.P.J. Abdul Kalam – Play, and Dreamscape received wide appreciation.

The event also honoured distinguished alumni for their achievements and continued association with the institution. Students from Matriculation, CBSE, and Padasalai streams participated with remarkable teamwork, confidence, and discipline. The programme concluded on a patriotic note with a vote of thanks and the National Anthem. UTSAV – 2026 stood as a memorable celebration of holistic education, with the management appreciating the dedicated efforts of teachers and students in making the event a grand success.

UTSAV 2026 (cont.)

Shrishti's UTSAV celebration was graced by a stellar lineup of distinguished alumni, including Mr. Jerry Calvin (ISRO), Dr. Karan Shankar (Indira Super Speciality Hospital), Mr. Sunil (Cooperative Societies), Dr. Nivetha (Katpadi Govt Hospital), Mr. Kalaivanan IPS (Puducherry), and Ms. Poornima (cine actress & Bigg Boss celebrity). Their presence infused the event with pride and nostalgia as they shared heartwarming memories of their school days, highlighting the institution's pivotal role in shaping their journeys. With inspiring words, they encouraged students to pursue their dreams with confidence and integrity, fostering a strong bond between past and present students.

Mr. Jerry Calvin
Deputy Director, ISRO

Dr. Karan Shankar
Executive Director, Indira Super Speciality Hospital

Mr. Sunil J
Senior Inspector, Co-operative Societies

Dr. Nivetha J
Assistant Surgeon, Government Hospital, Katpadi

Ms. Poornima Ravi
Actress · Model · Vlogger · Bigg Boss Celebrity

Mr. Kalaivanan
IPS (Puducherry)

Pongal Celebration

Pongal, the auspicious harvest festival of Tamil Nadu, was celebrated with great joy and cultural fervour at Shrishti on January 13, 2026. The event symbolised gratitude, prosperity, unity, and respect for nature.

The Chief Guest, Mrs. Ezhilarasi Manavalan, B.Lit., M.A., Ph.D., D.T.Ed., a renowned Pattimandram and spiritual speaker, graced the occasion. The programme began with a prayer song, followed by a welcome address by Ms. Divya. Cultural performances including a welcome dance, Tamil poetry recitation, folk dance,

silambam, martial arts, and a special choir song showcased students' talent and cultural pride.

An engaging debate led by the Chief Guest on parental advice and the younger generation inspired thoughtful discussion. Traditional activities such as bullock cart rides, Uriyadi, kolattam, and a house-wise kolam competition brought rural traditions to life.

The celebration concluded with a vote of thanks by Ms. Tamilarasi. Sweet Pongal was distributed to all, and a special festive lunch was arranged for the staff, making the celebration truly memorable and enriching.

Farewell

A heartwarming farewell ceremony bid adieu to Std. X and XII students on 31.01.26. The event featured a prayer, vibrant decorations, and a stunning Crown Show by Grade XII students, showcasing their confidence and talent. Trustee Shri. Mahadevan Venkatesh graced the occasion with blessings, while Head of Schools Mr. M.S. Saravanan inspired with motivating words, and Principal Mrs. Thingal Johnson shared a thoughtful message. Mementos were distributed, and students expressed gratitude, creating joyful memories.

Learning Beyond the Classroom

“When learning is joyful, skills grow naturally beyond textbooks.”

Our January Inter House Activities (IHA) blended fun with purpose, engaging students across Grades I–V in meaningful learning experiences. Grades I–III strengthened memory and creativity through the Brain Buster game and Tiranga Wall Hanging, fostering focus, imagination, and patriotism. Grades IV–V celebrated Unity in Diversity with vibrant folk dances and enhanced digital awareness through the My Safe Digital World quiz on Data Privacy Day. Together, these activities promoted creativity, teamwork, cultural pride, cyber awareness, and confidence—truly reflecting holistic learning beyond the classroom.

Our tiny tots absolutely nailed the Pongal spirit! They dressed up in traditional finery, bringing the 4 days of Pongal to life. With Pongal goodies, pots, and more on display, they even relished the yummy Pongal treats - a sweet way to celebrate our rich traditions!

Our tiny patriots had a blast celebrating Republic Day! They made vibrant collages of our national flag and learned about India's national symbols - the lion, lotus, and more! A fun way to ignite love for our country.

Acheivers of Olympiad Exam (G.K & ENGLISH)

Republic Day

The Republic Day celebration was held with dignity and patriotic spirit at the school on Jan.26. The program began with Tamizh Thai Vazhthu. Mr. Venkatraman from Shrishti Matric. , welcomed the gathering followed by an inspiring speech. The National Flag was hoisted by Mrs. Thingal Johnson, Principal, Shrishti Matric. A patriotic song, was melodiously rendered by our music teachers Mr. Sam and Mr.Charles adding meaning to the occasion.

The celebration was attended by the students & teachers from both Shrishti Matriculation and CBSE, along with the janitors, drivers, and non-teaching staff, reflecting unity and collective participation. Sweets were distributed and the program concluded with the National Anthem, fostering a sense of unity and national pride.

Medical Camp

A medical camp was organized in our school to ensure the good health of students. A team of doctors and nurses from Narayani Hospital conducted the camp on the school premises.

The students underwent basic health check-ups such as height, weight, eye, dental examinations and general medicine. The doctors also gave useful advice on maintaining personal hygiene and healthy habits. Medical consultant was given to certain children who required special attention.

The camp was well organized with the help of teachers, and students participated actively. The medical camp proved to be beneficial and raised awareness about the importance of good health.

Inter House Activities

Silent patriotic Story

The Inter-House Silent Patriotic Story activity was conducted on Jan. 23 to instill patriotism and encourage creative expression among students. Participants from all houses presented meaningful patriotic stories using gestures, expressions, and placards without dialogue. The performances highlighted themes of unity, sacrifice, and love for the nation. Students showed excellent coordination and creativity.

The event was judged on theme, clarity & expression, and emotional impact. Overall, the activity was engaging and successful, fostering teamwork and national pride among students.

Traditional Kabaddi Game

On 30th January, Traditional Kabaddi Game was organized in the school for both boys and girls to promote traditional sports. Students participated enthusiastically and displayed teamwork, strength, and sportsmanship. The event highlighted the importance of indigenous games in physical fitness and unity. The competition was judged based on the cumulative score of both boys' and girls' teams. Overall, the event was successful and enjoyable.

Slogans Against Caste Discrimination

Caste divides, love provides. equality guides.
The Constitution is our guide no one is left outside
Don't label people, value them.
Caste is a cage; Equality is the key.

- Siddharth . K (VIII-A)

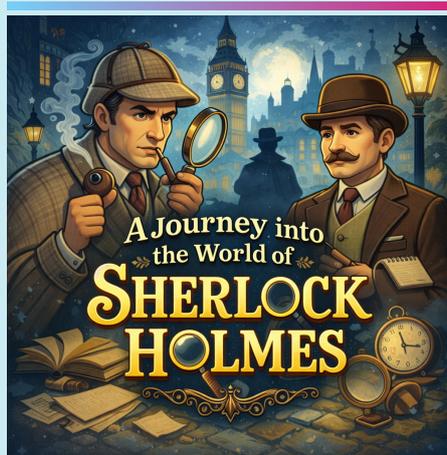

Fun Math Facts

1. Zero changed everything – without it, modern math and computers wouldn't exist.
2. Infinity isn't a number – it's an idea, and there are even different sizes of infinity
3. Pi never ends – its digits go on forever without repeating.
4. Nature loves math – flowers, shells, and hurricanes follow the Fibonacci pattern.
5. 9 is magical – multiply it by any number, add the digits, and you'll always get 9.

- Ruthika.M (VIII-A)

A Journey into the World of Sherlock Holmes

Reading Sherlock Holmes by Sir Arthur Conan Doyle was an exciting experience for me. From the very first story, I was drawn into the world of mystery and clever investigations.

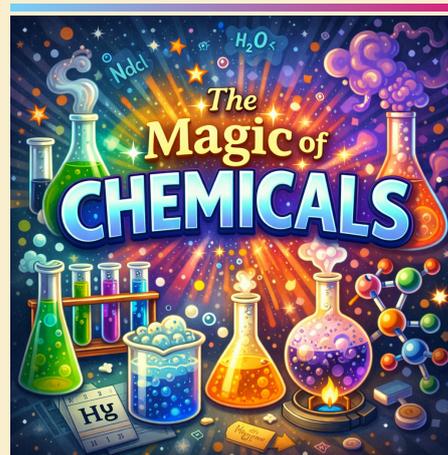

I enjoyed trying to solve the cases along with Holmes, which made reading feel like a challenge rather than homework.

The way Sherlock Holmes observes small details taught me to be more attentive and logical in my thinking. Dr. Watson's narration made the stories easy to understand and enjoyable.

Overall, reading this book increased my interest in mystery novels and showed me that books can be both fun and educational.

- Hansitha. S (VIII-A)

The Magic of Chemicals

Chemicals are often misunderstood, but they are essential in our everyday life. From the soap we use in the morning to the food we cook, chemistry quietly works behind the scenes. Medicines and vaccines, created through chemical research, protect us from diseases and save millions of lives. Even simple activities like cooking, cleaning, and breathing involve chemical reactions. The colorful fireworks we enjoy and the materials we use in school are also gifts of chemistry. Beyond daily life, chemistry helps protect the environment through water purification, renewable energy, and eco-friendly materials. What we learn as formulas and reactions today may become solutions for tomorrow. Chemistry is not just a subject—it is the magic that shapes our world.

The Gig Economy in Modern World

The Gig economy is a modern form of employment where people work on short-term or task-based jobs instead of permanent positions. In India, many workers earn through gig platforms such as food delivery services, ride-hailing apps, freelancing websites, and online teaching.

- One major feature of the Gig economy is flexibility.
- Workers can choose their working hours and accept jobs based on their availability and skills.
- This is especially useful for students, homemakers, and people seeking extra income. It also creates new job opportunities in both urban and rural areas.

However, the Gig economy also has challenges. Most gig workers don't receive fixed salaries, job security, paid leave, or social benefits like health insurance and pensions. Their income often depends on consumer demand, ratings, and platform rules.

The Gig economy shows how technology is changing the nature of work. While it offers freedom and quick learning opportunities, it also highlights the need for better protection and security for workers. A balanced approach can help make the Gig economy fair and sustainable for the future.

Reading Between the Lines: The Intellectual Discipline of English Studies

"The act of reading is an act of reasoning."

English, as a discipline, transcends the mechanical acquisition of linguistic structures. It functions as an intellectual exercise that cultivates discernment, interpretation, and reflective thought. Through sustained engagement with texts, learners are trained not merely to read, but to comprehend, evaluate, and respond with depth.

In the English classroom, reading is an active and deliberative process. Students are guided to uncover implicit meanings, examine authorial intent, and appreciate multiple perspectives. Literary texts, in particular, serve as profound explorations of the human condition, inviting learners to engage with ethical complexities, emotional truths, and social realities.

The study of English further refines cognitive and expressive faculties. The ability to construct coherent arguments, substantiate viewpoints with textual evidence, and articulate ideas with precision fosters intellectual discipline applicable across all fields of study.

In an era characterised by rapid consumption of information, English education preserves the practice of attentive reading and critical inquiry. By teaching students to read between the lines, English nurtures independent thinkers equipped with analytical acuity and communicative sophistication.

Thus, English must be recognised not merely as a subject of language, but as a cornerstone of intellectual formation and lifelong learning.

- Ms. Divya Ravi
Dept. of English

Science Breakthroughs

Recent innovations in computer technology are reshaping how we live and work. Quantum computing is enabling ultra-fast problem solving far beyond traditional computers. Edge computing brings processing closer to devices, making applications faster and more efficient. Advances in machine learning now allow computers to predict diseases, translate languages instantly, and power self-driving cars. These breakthroughs show how computers are becoming smarter, faster, and more connected every day. Class XI & XII - Emerging Technologies.
